

TROPICAL HOUSE – JAJALILUNA

Edition September – November 2012

Villa Jajaliluna

To get the best out of a holiday it is important to be in the right place, facilities and services have to be good and the location has to be handy for the things you want to do. Villa Jajaliluna is close to the vibrant and upmarket heart of Seminyak, just steps from many fine restaurants, famous bars and chic boutiques. Seminyak Beach is only 100 meters away so you are very well placed to get the best out of your holiday and experience what the island of Bali has to offer.

The villa sits on a 670 square meter property and offers 4 bedrooms, each of which has an ensuite bathroom. A T-shaped swimming pool is the focal point of the villa reminding you from the moment you arrive that you are on holiday.

The architecture and interior of this villa provide what discerning travellers have come to expect these days; five star facilities and services, quality relaxation all within a beautiful, serene atmosphere. The villa has a "luminous" feel with white façades, French-style shutters, terrazzo tiles, palimanan stone surrounds and lengking wood floors which bring together both modern and colonial architecture styles to create a tropical oasis.

An open plan kitchen and dining garden overlooking the pool is a great place for gathering with friends or family while the in house chef prepares a seafood barbecue. If you'd rather dine outdoors, a dining terrace is provided situated just next to the pool. The villa also has a media room should you wish to take time out and catch up with a movie.

Careful thought has been put into the design of Villa Jajaliluna such that, whatever your needs, a private, relaxing and enjoyable stay can be assured and, with 5 star friendly services, you won't be disappointed.
